

"The American Committee for Protection of Foreign Born . . . has undertaken the task of assuring fair play to the foreign born within the United States. Every American wishes it success . . . We must scrupulously guard the civil rights and civil liberties of all citizens, whatever their background. We must remember that any oppression, any injustice, any hatred is a wedge designed to attack our civilization. We welcome the work to maintain the rights of the foreign born."

—FRANKLIN D. ROOSEVELT  
March 2, 1940
